The MISSION Family

General Information of MISSION

FROM THE SECRETARY DESK

I wish 2023 has come with a freshness and joy in everyone's life. The year that went by was immensely challenging, with many of us having faced personal losses, during the second wave of the pandemic. We can say it's a dark phase for all of us. My deepest condolences to the families who lost their near and dear ones.

MISSION has been working for the society since 2002 as a bridge between the government and beneficiaries. The project team had to go on door to door visits in every village and conduct rigorous mobilization sessions to spread awareness about the importance of facilities given by different government departments. The results have been satisfying. People are becoming aware day by day. But this was just the beginning of a challenging journey.

In addition, we made definitive progress towards strengthening our organization by inducting new members into our board and leadership teams.

Looking back on our journey of 2022-23, it has been quite an amazing year, introduced several projects with government agencies mainly on livelihood interventions to promote and support livelihood opportunities for a large number of people.

Our Vision is to introduce an equitable society where people can realize and exercise their potential, and live in peace with dignity.

This Annual Report 2022-23 will bring into your knowledge about MISSION and the complete description of activities conducted during the mentioned year.

Shri. Prabodha Kumar Moharana
Secretary, MISSION

INTRODUCTION

MISSION is a non-government, non-political and non-profit development organization established in 2002 dedicating to enhance the quality of lives of rural and urban poor in Odisha. The strategic priorities are mitigating acute poverty and starvation, ensuring social inclusion and justice, good governance and citizen's right. Sensitizing communities identify and initiate development measures. Being a strong believer of the thought people's participation key to social reforms, we facilitate community to be engaging with different initiatives taken for their development. We are directly work with community and takes their issues into larger development forums for their accelerate growth. Besides the basic needs i.e. livelihood, health, education, habitation, emergency support, water and sanitation, we are analysing socio-economic issues, which prevent their growth. Our campaigns: on making alive of verbal tribal languages, saving indigenous seeds that are in endanger stage, cattle care movement are exceptional efforts to serve the society in differently.

Vision

An equitable society where people can realize and exercise their potential, and live in peace with dignity.

Mission

To endorse sustainable practices includes socially inclusive and gender equitable to enable hard-core poor and group of conscientized people or communities to enjoy a dignified quality of life.

Values

Our History

Suffering of victims of devastating super cyclone in coastal belt of Odisha in the year 1999 and subsequently floods in 2000 and 2001 stimulated Sh.Prabodh Kumar Moharana to build a civil society organization to serve people. Those times gave an opportunity to realize that people need to take initiatives for their development and support mainstream agencies for overall growth of the society. It has been realized that there is a need to extend professional support from NGOs to the community and joint effort of GO and NGO is highly required in the state of Odisha for quick socio-economic growth of the state. Under the leadership of Mr.Prabodh, MISSION has formally registered in 2002 after two years of interaction and engagement with rural communities, with the mission to "energize and enable communities to realize their potential". We started by working with a few rural communities in Odapada Block of Dhenkanal District in the state of Odisha. Since its inception it has focused on Entrepreneurship Development , Capacity Building, Skill Development, Livelihood Promotion etc. and have come a long way to being functional in 5 Districts.

Our Approach

Mission's approach is holistic. It has ability to adapt to changing development context is what makes it unique and has sustained it for more than one decades. It support government in terms of effective implementation of different development schemes and ensure public participation in monitoring and evaluation of the program. It also builds evidence at community through research to advocate for pro-poor policy.

Interaction with the community during the Livelihood Entrepreneurship Development training Programme (LEDP) supported by NABARD

THEMATIC EXPERTISE OF MISSION

In the FY 2022-23, the MISSION is working in Capacity building training programme, Entrepreneurship development, and various livelihood promotion activities to empower individuals and the communities, enhance their skills, and create sustainable economic opportunities for long-term growth and prosperity.

Entrepreneurship Development

Entrepreneurship is the process of designing, launching and running a new business, which is often initially a small business. There is a very important role for entrepreneurs to spark economic development by starting new businesses, creating jobs, and contributing to improvement in various key goals such as GDP, exports, standard of living, skills development and community development. Keeping in view the above MISSION is imparting EDPs since 2005 with the assistance of Ministry of MSME, Govt. of India & Director of Industries in the Department of SMME, Govt. of Odisha. This year MISSION has conducted so many batches of EDPs for the unemployed youth of Dhenkanal District. Generally it is Two Weeks programme comprising 37 to 43 sessions of 1 hour to 1.30 hours each session. Thematic experts, subject specialists, eminent management speakers, professionals, consultants, successful entrepreneurs, bankers etc were invited to deliver the lecture. MISSION not only imparting training but also providing handholding supports to the trainees after successful completion of training to start their venture / enterprises. 6 nos. of in-house faculty and 40 nos. of visiting faculties engaged to deliver the lecture.

LivelihoodsPromotion

To address the livelihood issues of community, MISSION follows its two-fold livelihood strategy. One is 'self-employment' where we promote

entrepreneurship ecosystem across our operational area. The next one is 'job employment' under this strategy; we identify potential youth then trained them on industrial demand driven trades and place them at different potential employers. Under the self-employment strategy, we conduct general EDP and trade based EDP to enhance the knowledge of people on business management and high degree of motivation towards entrepreneurship. Under this program, every year nearly 10 batches (each batch consisting of 20 candidates) EDP has been organized, out of which specific batches for SC, ST & Women has also been organized. Khadi & Village Industries Commission (KVIC) is implementing a scheme under the Ministry named as PMEGP by merging two scheme named as REGP & PMRY. Being MISSION an accredited training centre, we have been conducting EDPs for the beneficiaries since the inception of the scheme.

We use and disseminate the slogan "Job seeker turn into job creator". MISSION not only provide training but also support the trained candidates in conducting market survey, preparing business development plan, minimum registration formalities and linkage to different banks. We empanel numbers of experienced 'mentors' within the locality who guide our entrepreneurs consistently during initial period of two years. 'Business Idea Contest' conducted once in a year to get innovative, feasible business ideas, and potential candidates who become progressive entrepreneurs in future. Explore update information, expertise, and benefit of different schemes from DIC/RIC, block IPOs, and linked them to our entrepreneurs. MISSION has formed 'high performer entrepreneurs clubs' to whom we use as our ambassador for further promotion of entrepreneurship eco system within the region. Best entrepreneurs have awarded every year and have recognised best mentors based on their assigned entrepreneurs performances. Apart from various measurable indicators, entrepreneur's performances measured by two broad parameters i.e. 'annual business turn over' and number of 'employment generated'.

Our promoted entrepreneurs have engaged with different farm, off-farm and non-farm based enterprises. Different business are managed in two forms i.e 'Cluster business' where SHG members are making their product individually but procuring raw materials and market their product in bulk with negotiated traders. 'Individual business' where entrepreneurs deal their business individually.

Training and Capacity Building Programme for the FY 2022-23

SHG Livelihood Programme

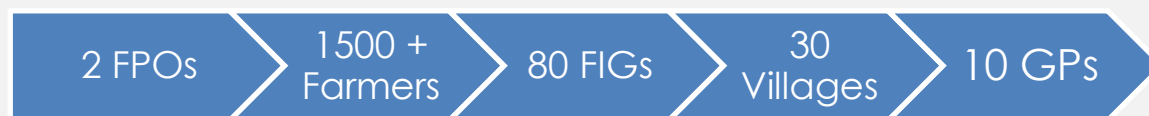

The **Beekeeping training programme** is supported by the KVIC (Khadi and Village Industries Commission) specifically for Self-Help Groups (SHGs). This initiative aims to provide training and support to SHGs interested in beekeeping, promoting sustainable beekeeping practices and generating income opportunities in rural and village areas. In total 00 members of the 00 WSHG are imparted training on beekeeping as an alternate livelihood opinion.

The **Entrepreneurship and Skill Development Programme on Household Consumable (ESDP)** is an initiative focused on fostering entrepreneurship and skill development in the production of household consumable items. The program aims to empower individuals with the necessary knowledge and expertise to manufacture various household consumables, such as cleaning products, personal care items, and other essential goods.

STORY OF IMPACT

"Empowering Remote Areas: The Transformation of a Photocopy Unit in the Digital Age"

Mr. DharmendraSahoo, son of Mr. BasudevSahoo, Age- 30, is a villager of Sogar village, Kamakhyanagar block of Dhenkanal district, Odisha staying with 5 family members. He tried several things for earning to look after his family but due to the lack of motivation and confidence he was unable to do so. Then he heard about the Entrepreneurship Development Programme (EDP) implemented by MISSION a leading NGO and supported by RIC, Dhenkanal and Director of industries, Govt. Of Odisha, where he got to know the employment related opportunities and got confidence, motivation and inspiration to start a business. Soon he started a Printing & Xerox shop, took loan of amount Rs. 4,50,000/- from Union Bank. Where he is now doing Xerox, Lamination, Photo Print, Online work etc and earning Rs. 18000 – 22000 per month.
